

CSWC Operational Period Summary 1800 June 23 2014 to 0600 June 24 2014

Cal OES Headquarters

SITUATION SUMMARY

Brand Incident, Vegetation Fire, Los Angeles County (No Change)

- Location: Brand Park, City of Glendale, Los Angeles County
- Jurisdiction: LRA
- 150 Acres
- Forward rate of spread stopped, continued containment and mop up

Oak Incident, Vegetation Fire, Calaveras County (No Change)

- Location: California Oak Valley Road x Pool Station Road, Copperopolis, Calaveras County
- Jurisdiction: SRA
- Start Date/Time: 06/22/14 1237 hours
- 85 Acres, 90 % contained
- Forward spread has been stopped
- 1 outbuilding destroyed

Significant Weather

- Red Flag Warning in effect from 1300 to 2300 Wednesday for areas in Alpine and Mono Counties
- Fire Weather Watch in effect from Wednesday morning to Wednesday evening for portions of El Dorado, Placer, Nevada Counties.

Cal EOC Incident – 2014 Drought

- SOC / Inland REOC remains activated in support of 2014 Drought

WEATHER

WEATHER SYNOPSIS BY REGION:

NORTHERN CALIFORNIA AND CENTRAL COASTAL AREAS:

Eureka Weather:

High pressure will remain in control of the weather pattern through today. Late night and morning coastal low clouds will become more persistent over the next few days with a widespread increase in clouds on Wednesday and Thursday. As a series of weak disturbances clips northwest California, there will be a chance of rain, especially near the Oregon border on Wednesday and Thursday.

San Francisco Weather:

Seasonable weather will continue through Tuesday with highs 60s near the coast, 70s around the bay and 80s farther inland. An upper trough will move across Northern California around midweek. Precipitation with this system will most likely remain over far Northern California and the northern Sierra Nevada although there is a slight chance of light rain across portions of the San Francisco Bay Area on Wednesday night and Thursday. High pressure will rebuild by next weekend and temperatures will trend above normal.

CENTRAL CALIFORNIA AND SOUTHERN SAN JOAQUIN VALLEY

Sacramento Weather:

A subtle trough will move through the Sacramento Valley today with breezy Delta winds. Cooler and windier with a slight chance of showers Wednesday and Thursday. Flat ridge returns for warming Friday into this weekend.

Hanford Weather:

Near normal temperatures and mostly clear skies can be expected with a few passing high clouds today as weak high pressure prevails over Central California. Breezy conditions along with slight cooling Wednesday and continuing into Thursday before temperatures begin to warm again Friday through the weekend.

WEATHER SYNOPSIS BY REGION: (Cont.)

SOUTHERN CALIFORNIA:

Los Angeles Weather:

A weak ridge of high pressure will bring slight warming to most areas today and Wednesday. There will be gusty winds at times in the mountains and deserts and across coastal sections of San Luis Obispo and Santa Barbara Counties.

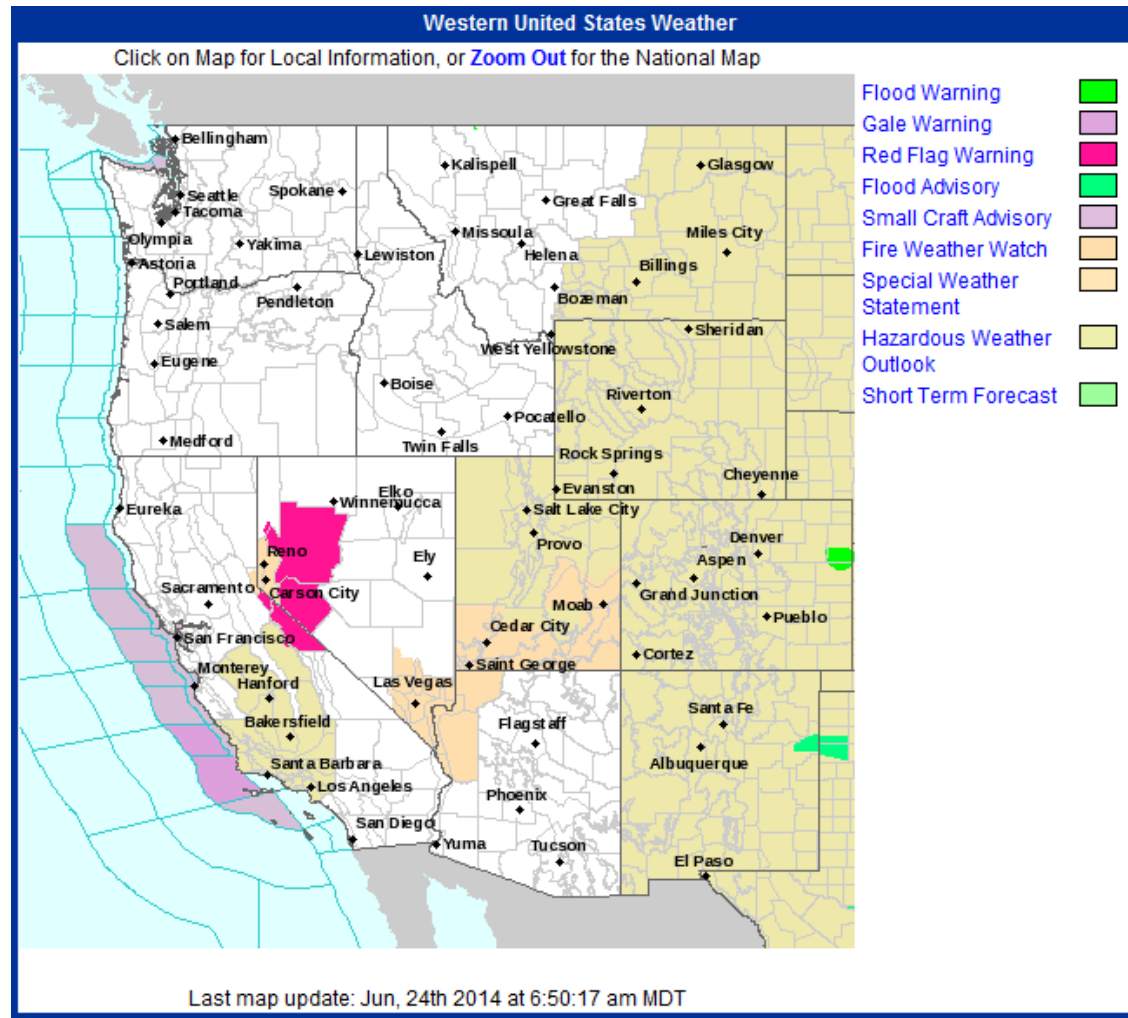

Extreme Southwestern California Including Orange, San Diego, Western Riverside and Southwestern San Bernardino Counties:

Onshore flow will maintain seasonal weather for the next week with gusty west winds in the mountains and deserts each late afternoon through late at night. Minor day to day temperature changes through Thursday then a little cooler for Friday with a little stronger winds as a trough of low pressure moves inland.

Southeast California Weather:

Nearly cloudless skies, typical afternoon breeziness and persistence forecast for temperatures this week. A more organized Pacific low will develop Thursday resulting in stronger afternoon winds. A warming trend is expected by the weekend with even warmer temperatures possible by next week as strong high pressure builds into Southeastern California.

CAL OES ACTIVATIONS

Cal EOC Incident – 2014 Drought

- The SOC is activated at Level 2 in support of the Drought State of Emergency from 0800-1700 hours daily.
- The Inland REOC is activated at Level 2 from 0800-1700 Monday through Friday or as needed.
- The Southern REOC is activated at Level 1.
- The Santa Barbara County OA EOC is activated at Level 2 to be handled by the duty officer for the purpose of monitoring activities and gaining situational awareness. The operational period is 0800-1700 hours.

Cal EOC Incident – 2014 Drought

Situational Summary

On January 17, 2014 Governor Edmund G. Brown proclaimed a State of Emergency and directed state officials to take all necessary actions to prepare for drought conditions. The State Operation Center (SOC) is activated to implement objectives in support of the Governor's priorities. The lack of winter rain and snowfall has resulted in extremely dry conditions in many parts of the State. Reservoir levels are down significantly from where they should be on average for this time of year. If conditions continue without substantial rainfall, severe impacts to municipal water supplies, agriculture (plants and livestock) and firefighting capabilities are likely in store for the State over the next few months. Negative economic impacts will also result.

****As our state's rainy season comes to an end, it is highly unlikely that precipitation totals will increase significantly. This winter's below average rain and snowfall worsens conditions in this third straight dry year.***

The drought could result in severe impacts to the municipal water supplies, wells, agriculture (plants and livestock) and firefighting capabilities for several months. The SOC continues to be activated to monitor the situation statewide, and support regional and local operational areas.

Situational Summary (Cont.)

- The Taskforce continues to meet regularly to take actions that conserve water and coordinate state response to the drought.
- The final manual snowpack survey of the season was conducted on Thursday (May 1) and showed California snowpack at 18% of normal.
- DWR has announced that water essential for health and safety will be delivered through the state water project. The current State Water Project Allocation is 5%.
- Cal OES continues to gather drought-related costs from state agencies and local governments.

CAL OES MISSIONS

Ongoing Cal OES Missions

- **2014-LAW-2798**, El Dorado County is planning an in-county SAR exercise on 07/15/14 for their volunteers and have requested the assistance of the California National Guard (CNG) aviation assets to support the exercise. Elements of the exercise will include an orientation to the various CNG air assets (H72, H60 and CH47), hoist training, patient packaging for air evacuation and ground team insertion and extraction training.
- **2014-LAW-2483**, The 95th CST will provide area monitoring, secure communications, and WMD expertise for the IRL Racing Event at Sonoma Raceway August 22-24, 2014. They will assist with advanced planning and be pre-positioned prior to the start of the event.
- **2014-LAW-2481**, The 95th CST will provide area monitoring, secure communications, and WMD expertise for the NHRA Racing Event at Sonoma Raceway July 25-27, 2014. They will assist with advanced planning and be pre-positioned prior to the start of the event.

Closed Cal OES Missions

- **2014-LAW-2679**, The 95th CST will provide Joint Hazard Assessment Team support in support of SFPD's Special Operations Bomb Squad at the 2014 Bay to Breakers Marathon. Radiation detection teams will survey background levels of radiation as part of the overall security plan. The 95th deployment will include advanced planning and pre-positioning prior to race day. [06/23/14: Mission Complete.](#)

Mission:

We protect lives and property, build capabilities, and support our communities for a resilient California.

We achieve our mission by serving the public through effective collaboration in preparing for, protecting against, responding to, recovering from, and mitigating the impacts of all hazards and threats.
